

Meeting Notes:

Follow the grading rubric for meeting deliverables

Next meeting: update readme file
and create release notes every week

Use branches for user stories and merge to main, any code pushed should be functional and work

Planning to create more user stories and start on UI

Bare minimum is the MUST haves but you should have more than that

Finish by week 3 (before break)

Week 4 testing (after break)

Push code at least 3 times **PER USER** throughout the week

Keep project board updated

Branch name should match project board task name
