Application name –

Card Crusade

Application Description –

Our application will be a card game similar to the traditional card game war except we're providing a digital upgraded version. The interface would allow gamers to register an account they can log in with to keep track of their stats as they compete.

Vision Statement –

For card enthusiasts, **Who** want to experience an online card game and keep track of their wins. **C**ard crusade **is an** interactive game **that's** an easy digital access to an entertaining take on the traditional card game war. **Unlike** physical playing cards, **our product** allows for quick access to entertainment at their fingertips and allows the user to keep track of their stats as they compete.

Communication Plan –

Our team is planning to communicate over text message and an email group. The text message group will be for quick communication between group members and the email group will include Swaminathan, our TA.

Meeting Plan –

Team meeting: TBD, Our teammate Jose is absent so we will discuss over text when to meet next before the next lab

Weekly meeting with TA: Saturday November 5th, 11:00am, Online
